WHO WE ARE

The School of MOVES is a platform for purposeful self-expression for highly motivated Movement Artists to teach the next generations through transformational entertainment & experiences to become conscious thinkers, curious artists, passionate Soul-led Leaders by the moves they make in the world.

We use entertainment to educate and inform children, teens and active individuals to be highly aware of the creative inner power they possess when they listen to their hearts, love their bodies and challenge their minds.

MAKE MOVES THAT MATTER

Dianna David has been an ArtStarts Touring Artist since 2008, is a multidisciplinary artist, teacher and inspirational storyteller who delivers educational entertainment through the fusion of urban dance, clown, prop manipulation and multimedia.

THE FACULTY OF FRESHNESS

Kyle "Too Tall" Strauts is a teacher, street dance artist, movie star who is known for his bigger than life dance antics and futuristic philosophies on education that make you think with a smile.

Belle Taneda is a 2nd degree black belt in Karate and has been teaching for 16 years with her Sansei father. She blends her love for animals, kids, fitness, & movement artistry into her teaching, appreciating life in a whole new way!

Our faculty of Movement Artists come together to pass on their passions through full length theatre shows, interactive festival shows, motivating solo acts, artists in residencies, online lessons and special character feature appearances.

Our mission is to create a movement of individuals who are purposefully exploring their passions to "Live it Outside the Box" of limitations and to contribute that change to the community around them.
